Interesting game\novel. I like Ms. Mia's games, and since she is a fellow ASD sufferer, I feel the need to support her stories. Now, first thing, this game has simulated crashes, so don't get put off by them. Also, near the end there is a short game where you have to press certain letters in sequence. For three of the achievements, you need to FAIL in three different stages (since there are three stages of sequences). Success will get you a victory achievement.

Well worth the read\play.
